Dear Jonas Nörtemann,

I'm enthusiastic about applying for the Ruby-Developer for auction platform Kickdown position, where my proven experience building scalable web applications with Django and Angular, combined with my strong Ruby on Rails skills, would allow me to make immediate contributions to Kickdown's success. My track record of implementing innovative features and optimizing code for efficiency, as demonstrated by my work on Xref and Squibler.io, would be highly valuable to your team.

Best regards,

Muhammad Abdullah
